IntelliClear Helps Deliver Hygiene Kits to aid in the Hurricane Katrina Relief Efforts

Funds, Labor, and Coordination Contribute to Bring Adults and Children Together to Help Those in Need

COLORADO SPRINGS, Colorado, September 8, 2005 – IntelliClear, in an effort to join the growing throng of corporations stepping up to help victims of hurricane Katrina, announced today the successful execution of a project in which hygiene kits were assembled and sent to the devastated regions in Louisiana and Mississippi. IntelliClear provided the necessary funds to purchase materials for 100 of the hygiene kits, while CEO Eric Shuster helped coordinate and assist in the execution of the project through a local religious congregation in Colorado Springs. Along with other donations from adults and children in the local area, the project produced a total of 325 hygiene kits for distribution.

"This effort is directly in line with our commitment to serving the global community, whether that is in the Southern States of the US, or any number of regions throughout the world," says Alex Kalamarides, Managing Director and General Partner of IntelliClear. "All of us share a part in assisting those in need with whatever we can do – be it large, or small. We can all make a difference."

About IntelliClear

IntelliClear is a market research and business consulting firm committed to the delivery of actionable market intelligence to the global IT community. IntelliClear's mission is to bring clarity to IT market intelligence by delivering results-oriented research, responsive industry experience, and effective data synthesis - leading to confident go-to-market plans. IntelliClear leverages the experiences of seasoned IT and market research professionals, while utilizing its global network of industry consultants and research partners to execute projects across a broad spectrum of disciplines and geographies.
